Thanks for the quick response everyone. Although it is not Elke's preferred time, it appears that the best time would be between 11:30 and 1pm. So, let's try 11:30 am tomorrow. Again, this should not last more than 15-20 minutes.

Greg,

I can make anything work with the exception of 6:30-8 AM and 2-3:30 PM.

Also, I will be present at EPA for the meeting on the 6th.

Best regards,

Mike

Elke, Marina, Mike and Mike,

Thank you again for agreeing to participate in the “Discussion of **Points to Consider** Document and Pilot Results” session at the TSCA New Chemicals Meeting next Wednesday, December 6. I was hoping that we all could join together for a short call (15-20 minutes) tomorrow morning or early afternoon so that we could discuss logistics and raise/answer any questions.

Please let me know your availability tomorrow. If we cannot agree on a time amenable to all, I will call folks individually. Thanks.
